

Subject: Member resource section on NTC website

From: Benjamin Froehlich <info@newsroomtheatrecompany.com>

Date: 15/11/2020, 17:18

Dear NTC members

I promised we're keeping you busy if you want to ;-)) so something for into the new week...

We are working on a section on our website called "member resources". It will be a password protected subpage on the website and will contain the following three areas and more. Submit your entries when you are ready and we will launch this part of the network as early as at the beginning of December.

SERVICES FOR OTHER MEMBERS

This will be a list of services that our members can offer for other members. It is not for your direct performance and theatrical work, but anything else that could come in handy for other members.

Things like: headshot photography, showreel/voicereel production, web design, graphic design, singing lessons, music lessons, accent coaching, legal/financial advice, book keeping, recording piano backing tracks, producing instrumental playbacks... and so on...

Ideally with some kind of perk for other NTC members like a discount, something extra... but up to you.

If you want to enter your service to such a list, please fill in the following form for each service you'd like to enter to the list separately:

<https://www.newsroomtheatrecompany.com/services-for-other-members-form>

RESOURCES FOR MEMBERS

This should be a collection of documents, links, videos of resources we as NTC collect and create and want to share with you as we deem them helpful for our members' work and development. But we want it to be open for your suggestions of adding resources you came across or resources of your own research and expertise you'd like to share. As I said this could be a LINK to external sources, a DOCUMENT we can upload to our websites server or a VIDEO of you sharing such knowledge with other members. That doesn't have to be exclusive for NTC, so it is not about giving away your property/creation to us - just sharing it with other members. It is still yours and you can let us know if we should take it down again at any time. Other members will need permission by the author of the resource included on our website before sharing it with non-members.

Drop us an email if you have something we could add or if you plan to create something coming from your field of expertise you'd like to share with other members. It obviously could be linked to a service you offer, but we won't upload pure sales pitches ;-)

INTRODUCTION VIDEOS 30s OF NTC MEMBERS

We would like to give members the opportunity to have a 30s introduction video in this member resource section of our website - it is NOT a public pitch or an ident - it should be an introduction of who you are, what you bring to the network and what you are keen to be involved with within the network. We won't publish it anywhere public.

Doesn't have to be something fancy - but remember that other NTC members might be future colleagues, collaborators or even employers.

This is fully optional - but will add to your headshot, name and theatre disciplines for other members and our managing team to get to know you a little bit better.

Submitting such a video to us via WeTransfer will be best for us.

Looking forward to hearing from you about the three sections and we'll be in touch about further developments.

Take care and stay safe - let's challenge the future

Benjamin
